

## Distance Learning Evaluation Survey

### Audience: Parents

Dear Parents:

Thank you for your support of [District] this school year. Distance learning in April and May required a monumental team effort between our teachers, staff and families. I am proud of what we accomplished by working together.

Like educators across the nation, I am hopeful and optimistic that students will be able to safely return to classrooms in the fall. It is important, however, for us to evaluate our distance learning services to make improvements, in case it is necessary for school buildings to close again in the future.

Please take time to complete the survey below -- once for every [District] school your children attend. We value and appreciate your input. Thank you for your assistance.

Sincerely,

[Name]

[Superintendent]
