Greetings. It is my privilege to present to our community the Continuous Strategic Improvement Plan for Chickasha Public Schools. This plan was developed through the collaborative efforts of students, parents, civic and business leaders, administrators, teachers, and patrons over several months of meetings and discussions. This plan represents the goals and action steps that our district will focus on for the next five years and beyond.

We are proud to be the school district for this great community. The collaboration on this plan has helped in envisioning the future of our district and the roadmap of how we will work to accomplish our goals. By working together, we have developed a vision, a mission, focus areas, objectives, and action steps to continue moving forward in offering education excellence for every student.

I am very grateful for all of the time, energy, and hard work by the community committee that developed this plan. Their commitment to and passion for our district are greatly appreciated. I ask that you join us in ensuring that our plan is successful and meaningful in our district and community.

Always a FIGHTIN' CHICK!

EXECUTIVE SUMMARY

The Chickasha Public School District is committed to creating a positive learning environment and establishing high expectations to mold students into productive and contributing citizens. Chickasha Public Schools' 2022-2027 Strategic Plan stands as a blueprint for district transformation and change. After a yearlong journey of collaborative and transparent planning and development, the district now holds a comprehensive five-year plan for continuous improvement driven by data and stakeholder participation.

This plan emphasizes improved learning and strengthened college and career readiness for all students. To accomplish this, the district will vertically and horizontally align curricula and will implement the Individual Career Academic Plan (ICAP) with fidelity to help students prepare for advanced postsecondary academics and fulfilling careers.

Another tenet of the strategic plan stresses the importance of recruiting, developing, and retaining high-quality staff. Also recognized, however, is the need for additional resources, including the formal districtwide development and implementation of a facilities plan, a transportation plan, and a technology plan. Crucially, this technology plan involves not only acquiring and maintaining devices, but also training students on using those

devices and the importance of digital citizenship. The plan also addresses the need to maintain financial resources and does so by considering bond issues as needed.

Lastly, the district's plan for improvement stresses the value of its culture and community. A positive and healthy school culture creates the foundation for a high-quality learning environment and engenders the right conditions for effective teaching and learning. Results gathered from community forums and online surveys reflect that the community mirrors this belief in the importance of a respectful and nurturing environment as well as the value of family support and involvement. The plan supports this by scaffolding the districtwide development of a volunteer engagement program, a consistent discipline plan, and a formal program to recognize outstanding staff, students, family members, community members, and businesses. These initiatives and action steps will be continually monitored, and the Board of Education will be regularly updated.

Ultimately, this strategic plan incorporates a number of strategies to ensure students meet or exceed high standards of learning, mindful of students' varying backgrounds, abilities, ethnicities, languages, or income levels. This positions students to graduate on time and be college and career-ready.

THE MISSION OF CHICKASHA PUBLIC SCHOOLS IS TO CREATE A POSITIVE LEARNING ENVIRONMENT THAT ESTABLISHES HIGHER EXPECTATIONS WITH ALL STUDENTS SO THEY CAN BECOME PRODUCTIVE, CONTRIBUTING CITIZENS.

TIMELINE OF PLANNING PROCESS

PHASE I ENGAGE

PHASE II PLAN

“Who are we?” *District’s learner expectations, core beliefs, and core values*

The purpose of this phase is critical to the fidelity and sustainability of public education. Phase I gained stakeholder input in determining the community’s educational objectives. This process included community forums to engage stakeholders in reflective dialogue about the purpose and process of education in a local context. The community survey offered a second opportunity for stakeholders to provide input and ideas. Data collected from these were analyzed to reflect the community’s learner expectations, core beliefs, and core values, which were used throughout the strategic planning process. Goal areas and performance objectives developed in Phase II were aligned to them.

- **August 2nd — September 24th, 2021**

“Where are we now?” *Goal areas and performance objectives*

In this phase, the Planning Team, composed of school and community members selected by the District Leadership Team engaged in a collaborative inquiry process to implement change. Team members were representative of the demographics of the district with membership comprised of district leaders, school administrators, teachers, students, parents, community members, and a school board member who followed the process and served as a liaison to the local board of education. The Planning Team examined and analyzed a variety of district data types and sources. At the end of the second day of planning, based on the data analysis, goal areas were decided, along with performance objectives for each goal area.

PHASE III ACT

**“Where do we want to go?”
and “How will we know when we
get there?”** *SMART performance measures,
initiatives for each performance objective, action steps
for each initiative, timeline of initiatives*

All members of the Planning Team returned for this phase. Their first task was to make certain the goal areas and performance objectives were aligned to the community’s Learner Expectations, Core Beliefs, and Core Values. After two days, the team had developed action steps as well as performance measures that were Specific, Measurable, Attainable, Results oriented, and Time bound (SMART). On the third day, the Action Team developed a timeline for the five-year plan, being sure to avoid placing too many initiatives in any one year, to avoid overloading any responsible person, and to avoid creating a burden on the budget in any one year.

PHASE IV ACHIEVE

“How do we plan to get there?”
*Training of a site leadership team from each school site
in the district to develop a site-level year-one plan*

The district needs to be held accountable to achieve the goals set forth by this process. This phase works with a leadership team from each school site to instruct them in the process of examining the district’s strategic plan and determining how each of their sites will address the plan. Using their individual school data, each school site develops a year one plan, which will support the implementation of the district’s strategic plan. An accountability flow chart is developed and shared.

COMMUNITY ENGAGEMENT REPORT

The district's learner expectations, core beliefs, and core values were developed from the community responses to the online survey and to the focus questions asked at the community forums. All responses were compiled and then analyzed to represent one of these areas. As the strategic planning committees worked through the various stages of developing goals, objectives, initiatives, and action steps, they paused at each level of work to check their decisions against what the community had expressed. Alignment to these expectations, core beliefs, and values are noted in the rationale statements for each objective..

**Learner
Expectations**

Chickasha Public Schools expects the graduates of 2031 to possess...

- Life Skills
- Effective Communication Skills
- Mastery of Core Content
- Critical Thinking Skills
- Organization, Goal-Setting, and Time Management Skills
- College and Career Readiness Skills
- Financial Skills
- Conflict Resolution Skills

These expectations combined with opportunities to use technology and locate and use information will prepare Chickasha graduates to be productive citizens.

**Core
Beliefs**

Chickasha Public Schools believes that, to realize expectations for graduates, teaching and learning should provide...

- Family Support
- Relevant Content
- Collaboration
- Mastery of Basic Skills
- Creativity and Innovation
- Counseling
- Community Service
- Education on Postsecondary Opportunities
- Community Support
- Opportunities to Locate, Evaluate, and Use Information
- Insight on Student Strengths and Weaknesses
- New Chances for Student Leadership

This type of teaching and learning, along with opportunities for remediation, will create enriching experiences with engaging, hands-on activities and authentic student use of technology.

**Core
Values**

In order to ensure quality teaching and learning, Chickasha Public Schools values...

- A Respectful and Nurturing Environment
- Quality Teachers
- Quality Buildings and School Grounds
- Quality Programs
- Up-to-Date Technology
- School and Community Connections
- Strong Leadership
- Small Class Sizes
- Parental Involvement and Supportive Families
- School and Community Connections

By upholding these values, Chickasha Public Schools will create an environment for learning that provides adequate funding, competitive salaries for staff, and resources to meet the diverse needs of students.

ACKNOWLEDGEMENTS

The Oklahoma State School Boards Association (OSSBA) and the K20 Center for Educational and Community Renewal recognize the Chickasha Public School District, Board of Education, and site administrators in this endeavor to determine a path for continuous strategic improvement. Through this stakeholder-driven process, a five-year strategic plan directly aligned to the community's learner expectations, core beliefs, and core values has been developed to provide guidance for Chickasha Public Schools' decision-making and actions in the coming years. We also would like to acknowledge the dedication of those comprising the Planning Team and Action Team, who contributed their time, expertise, experience, and enthusiasm to the development of the district's strategic plan. Their engagement in this process mirrors the community's investment in education and its commitment to student achievement.

We appreciated the opportunity to work with the Chickasha Public School District.
